Arizona Corporation Commission Members:

DOCKETED BY

We the Youngtown Town Council and Mayor urge caution in the above referenced cases.

Full consolidation of the EPCOR Wastewater Districts, as proposed, would cause a punitive increase in wastewater rates of some 89% for customers of EPCOR's Sun City Water District, which includes the Town of Youngtown.

While it is clear that financing structures in some of EPCOR's other water districts are flawed and are burdening their members with unreasonable wastewater costs, shifting that burden to Youngtown and Sun City residents is not the solution.

There are many older residents, on fixed incomes, who would be asked to carry an untenable burden under this scenario. We believe this would abrogate the direct connection between delivery costs and rates placing an unwarranted, untenable and discriminatory burden on our citizens.

We ask that you vote no for full consolidation of the EPCOR wastewater districts as proposed in the above referenced cases.

Sincerely,
